

## The Trusted Local Business Network For Seniors And Their Families

We are **SeniorChecked!**

### What is SeniorChecked?

SeniorChecked is the trusted local business network for seniors and their families. It is a network of screened and verified local businesses. They conduct the industry's most comprehensive set of background checks on each member business. SeniorChecked requires every member business to undergo and pass more than two dozen local and national checks each year. Not everyone who applies to be SeniorChecked passes. So when you see our SeniorChecked seal you can know that our company has passed the rigorous verification standards and feel confident that our business has been verified.

Seniors are the #1 target of fraud and financial abuse in the country. 1 in 5 seniors have been victims of fraud or financial abuse at levels estimated to be at least \$2.6 billion annually. We know this and that is why it is so important for you to understand how trustworthy our company, **iReverse Home Loans**, really is.

I will subscribe to sound business practices that exhibit honorable values to you, your families and caregivers with clear and confident expectations. I will maintain professional integrity and competence at all times, never knowingly causing harm, fraud, or abuse. All of my services performed will be held to the highest standards. I will fulfill all contractual agreements with you as a senior, or your family or caregiver in a timely and professional manner. I will treat both you and your family with patience, dignity and respect.

My name is **John Moore** and I am a Reverse Mortgage specialist. Reverse Mortgages is my only business.

**“It's all about helping seniors”**

Sincerely,

John Moore  
Reverse Mortgage Specialist
